

One Click To Claim

As Simple As That.

For better-decision making and complete control of your company travel expense management and VAT reclaim. As simple as that.

The VAT Market Today

Companies now spend an average of 5% of their total annual budget on travel, with 4-10% of their spend eligible to be reclaimed through VAT.

More than \$20 billion of foreign VAT is left unclaimed by companies each year. Overworked accounting departments, misplaced invoices, complicated processes and global unawareness...all of these contribute to lost VAT-related revenues and inefficiencies for companies today.

WAY2VAT solves these challenges by providing automated methodologies, deep insights, and real-time control – so that finance leaders can make better decisions and have complete control of their travel expense management and VAT reclaim. WAY2VAT offers a comprehensive expense management ecosystem, integrating travel expense management and foreign VAT reclaim.

Our **one-click**, end-to-end cloud-based solution automates organisations' cumbersome VAT reclaim processes, and empowers employees while increasing corporations' bottom line.

WAY2VAT simplifies organisational travel expenses and VAT reclaims, providing better control and transparent reporting for financial departments, hassle-free reimbursement for business travelers, and full 'plug and play' integration into existing ERP systems.

Our one-click expense management solution is based on patented **Automatic Invoice Analyzer (AIA)** technology, based on computer vision, language processing, data science-computer vision, and deep learning.

The WAY2VAT Solution

One-click expense management for invoice capturing and travel report generation.

Cloud-based solution and big data insights are available on smartphones and on the web...anytime and anywhere.

A 'five-second' user experience. 'Scan, invoice and submit.' The employee is reimbursed, and the company gets back their VAT.

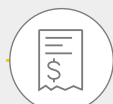

Fully automated expense management and VAT reclaim, reducing the chance of human errors that come with manual processing.

FIVE SECONDS IS ALL IT TAKES!

Take your mobile phone out of your pocket

Scan your invoice

Submit

YOU ARE DONE!
